

HEPTECH SYMPOSIUM 2018

Unique life-changing experience for early-stage researchers

11 – 15 June 2018

Szeged, Hungary

ELI-ALPS will host the 5th HEP Tech Symposium for early-stage researchers with entrepreneurial potential at its brand new research infrastructure facility in Szeged, Hungary.

If you are an early-stage researcher in high-energy physics and related enabling technologies and would like to expand your horizons beyond the Lab, take this week-long unforgettable journey!

Grab the unique chance to meet prominent research experts, technology transfer professionals and industrial players at one of the most exiting places for science!

TOPICS

- Entrepreneurship in physics
- IP protection
- Negotiations
- Open innovation in a knowledge-based economy
- Commercialization of research results
- Spin-off creation and financing
- Responsible research and innovation
- Economic impact and innovation management

Travel and accommodation are free of charge for participants.

Apply until 5th May 2018 at: <http://heptech.web.cern.ch/ready-adventure>
